for Governor, a true and tried member of the party—an able statesman and high-toned gentleman. To him has been confided the duty of bearing the Democratic flag throughout the State in the present can vass. He is doing his full duty, and doing it well. Now, we put it to every Democrat—every man who truly believes that the Democratic party is the best for the country, whether he is not in honor bound to sustain the candidate of his party truly and manfully. Whether by his own voluntary act as a Democrat he is not so bound-whether he does not feel that if he should allow himself to be turned aside by any outside, impracticable, electioneering hobby, he would be deserting his colors, disorganizing his party, and doing his part for its overthrow.

The same will apply to counties. The effort will be made to foist in distributionists, disorganizers-opponents, in fact-with the view of controlling the action party. This will be perhaps the point towards which think that the disorganizers already feel that their efforts in the direction of Governor are likely to be crowned with the success they deserve, which will be none at all. But it would be folly for the Democrats of the State, because success is certain to crown their exertions in the Gubernatorial campaign, to suppose that these exertions can be omitted. To obtain success the proper means must be used. To render the success complete the utmost vigilance must be used in every county to see that no man slips in as a Democrat who does not stick to the col-Governor, must not be allowed to remain with the slight-

> Regatta at Wrightsville. The Anna was the first boat off, the wind was light, but spreading so much canvass she was a long distance from the main land with the wind on the quarter, then hauled and beat out of the London Channel; this was the most exciting part of the race, the Anna, Twilight and Cally, side and side for some time, when the Cally grounded and the Anna and Twilight shot ahead about twenty feet. They then cleared the London Channel and took the wind on the quarter again, and ran down to the Banks' Channel, the Cally gaining on the Anna, the Twilight ahead of all. They then hauled and beat to windward around a stake boat near the Inlet, the Cally gaining steadily on the Anna, the Twilight 20 yards

After the Cally got around and bore away, she gained steadily on the Anna, but the distance was so short to the coming out stake that it was impossible for her to recover. The Twilight came out about 2 minutes ahead of the Anna, the Anna about & minute ahead of the Cally, the Cally about & minute ahead of the Princess, the Princess about 4 minutes ahead of the Fanny, the Dew Drop grounded and drew out of the race. The distance was about 7 miles, all the beating was against a strong flood tide and part of it in a narrow Channel, the wind was light, the time one hour and 3 minutes; the same ground was run over last 4th July in 47 minutes .-The prize was a large and splendid Pitcher. There will be another Prize Regatta on the 4th July next. The citizens of Wrightsville deserve a great deal of praise for the very comfortable house they have erected on the banks.

SCOTT'S HILL, June 18th, 1858. DEAR SIRS: Your communication of the 15th inst., informing me of my unanimous nomination by the Democratic County Convention for a seat in the House of Commons of the approaching General Assembly, has just been received. This testimonial of the esteem and confidence of my fellow Democrats, is very grateful to my feelings; and it is especially so from the fact that it was entirely spontaneous. It has long been with me a well settled opinion that political honors ought neither to be solicited or declined, unless, in the latter case, their acceptance would conflict with higher obligations. The representation from our county in the State Legislature must necessarily bear a heavy responsibility, by reason of the magnitude of the interests represented. Whilst I am deeply sensible of this fact, and sincerely distrustful of my own fitness for the position assigned me by the convention, still, in deference to the wishes of my ner so flattering to myself, I accept the nomination.

For the very courteous manner in which you have tendered me this honor, accept, gentlemen, my thanks.

With high regard, your obedient serv't, OWEN FENNELL and J. A. SANDERS, Esqrs., Committee.

Further Particulars of the Utah News St. Louis, June 15.—A despatch dated Leavenworth, the 13th instant, brought by United States express to Booneville, says that two gentlemen, named Malsen and Nickerson, arrived there last night in twenty-nine days from Camp Scott. They left Fort Bridger on the 14th of May, eight days subsequent to the last express.

Governor Cumming was still at Salt Lake City .-These gentlemen reported that General Johnston had that they bore a request from him to Colonel Hoffman to hurry the supplies forward, and that they met Colonel Hoffman May 22, fifteen miles beyond Platte Bridge, and two hundred and fifty miles from Camp Scott. His command was progressing well, but had lost fifty mules in the snow storm previously reported. Colonel Hoff-man, on receiving the order, immediately despatched twenty-five wagon loads in advance of his column to the assistance of Gen. Johnston. They also met the peace commissioners at Platte Bridge, who would overtake Colonel Hoffman. The same day they met Colonel Andrews, thirty-two miles beyond Fort Kearney.

The British vacht Syren, now in our harbor, says a New York paper of last week, is a very pretty little steamer. In length she is one hundred and ten feet over M. de Pene, the editor of the Figaro, who was wounded in the duel with M. Hegene, of the army, was much improved in health.

The English papers contain interesting details of the recent experiments made with the Atlantic cable, and of the proposed course of action of the expedition for the proposed course of action of the expedition for the editor of the figaro, who was woundall, her breadth across the beam is sixteen and a half feet, the depth of her hold is ten feet, and she is between eighty and ninety tons burden. She is rigged as a three-masted fore-and-aft schooner, and her screw is reckoned to be thirty-horse power. She has a cabin that may be removing all pains and uneasiness, and imparting a healthy all, her breadth across the beam is sixteen and a half ed in the duel with M. Adjoining it are the requisite number of sleeping rooms, and among them one for the use of Governor Freeman Murray, of Bermuda. Every part of her machinery is brightened and polished with the most punctilious care, and her decks are white with frequent cleaning. She is pronounced a pleasant little sea boat, besides being able to skip along at the rate of ten knots an hour. She is iron built, and thoroughly British in point of substantiality. Her crew consists of thirteen men, including her commander and his mate. She was specially ordered by the British Government, two years and a half ago,

and was built in Laird's shipyard, in Birkenhead, opposite Liverpool, England, immediately afterward. When she was launched and completed she proceed to Hamilton, Bermuda, where she has since been known as the "Governor's yacht." Her business there has been of a very varied nature. She is at one time the yacht of Governor Freeman Murray at another time a despatch Governor Freeman Murray, at another time a despatch boat, again she is used as a conveyance for Government passengers, and sometimes she plies between St. George's, the navy yard, and Hamilton, carrying sometimes the Governor or his friends, or anything else that may here.

medical practitioners in the world, and many cases have been abandoned as incurable.

Dr. J. WILLIAMS, Chemist and Pharmaceutist, after studying closely the practice of Drs. Abernethy and J. Johnson, England and observing the nature of the disease in all its stages, during a sojourn in the Southern and western portion of the United States, where it prevails to a greater extent than elsewhere, procured from South America, certain roots and herbs, from which he prepared an "Elixir;"

which, after eighteen years' use in private practice, has proved itself more efficacious in the cure of Dyspepsy, than any medicine that has ever been prepared in any age or any clime, for the same purpose.

Having submitted it, with an explanation of its components to a number of Physicians of Philadelphia, among whom were the late Drs. Joseph Hartshorne, and J. C. Morton, it has received their entire approval, and many of the Medical Faculty are now not only prescribing it for their patients but are using it themselves personally, and in their families. As a tonic, it is unequalled, and its properties are of so invigorating a nature, that it is given with perfect safety and success to the most tender infants.

The "Elixir" is very gradual, but certain in its action upon the organs of digestion, the increased secretions of the liver, pancreas and mucous membrane of the stomach, and requires that only one dose be taken in twenty-four hours; for confirmed Dyspepsy can only be cured by gradually restoring the organs of digestion to a healthy state. The great success met with in curing the most aggravated cases of Dyspepsy, accompanied sometimes with a high grade of hy-pochondriasis, has established the most unbounded confidence in the curative properties of this "Elixir," in corrob-oration of which read the following testimonials.
